# History

of American Lamprecht Transport Inc.  
(ALT)

## A family enterprise makes history

Founded in 1945 by A. Lamprecht in Basel, Switzerland, American Lamprecht, Inc., was incorporated as a subsidiary under New York state law in 1968. This family-owned, Swiss company has experienced success due to years of hard work and the tireless commitment of the ALT employees.

Specialists at strategically-located branches in Chicago, New York, Los Angeles, Houston, Greenville-Spartanburg, Miami, Denver, Baltimore, and San Francisco understand today's shipping business. American Lamprecht Transport, Inc. believes in a partnership based on mutual respect between all parties—the cornerstone of a lasting and successful business relationship.

# Founding Fathers

## Thomas Lamprecht

Presented on this day, the 24th day of February 2018, American Lamprecht Transport dedicates this plaque of honor of Mr. Thomas Lamprecht, CEO and Chairman of the Board at American Lamprecht.

In the 200 years since taking over from his father as the third leader of the Lamprecht worldwide organization, Thomas Lamprecht has guided an expansion to 9 offices in the United States, 7 offices in Switzerland, and the founding of the companies Lamprecht Pharma Logistics and Expo Cargo.

We honor him today for his character as a man beloved by all who have the pleasure to work with him. His deft and steady-handed leadership has created a model ensuring the enduring future of the Lamprecht organization.

## Adolf Lamprecht

July 19, 1927 — October 5, 1998

On June 24, 1971, Adolf Lamprecht II took Charge of Lamprecht Transport organization, continuing his father's vision. He would guide the company for 27 continuous years of profit without a loss, and navigate the organization into the beginning of the computer age. Under his leadership, American Lamprecht opened its second branch in Chicago — Lamprecht had exceeded in having over 200 employees and achieved the distinction of being in business for over 50 years.

Presented on this day, the 24th of February 2018, American Lamprecht Transport honors Mr. Adolf Lamprecht. He is remembered for his compassion, his value, and his commitment to the employees of the company. It is through the foundation of those principles and values, that the company adopted, and which still exist today, that we gratefully recognize and carry on his legacy.

## Adolf Lamprecht Sr.

December 3rd, 1898 — June 24th, 1971

On January 1, 1945, Adolf Lamprecht created Lamprecht Transport. On August 17th of that year, in a shipment that was the first of its kind, a convoy of trucks transported 90 tons of fresh fish from Denmark to Basel, Switzerland through war-torn Germany. This event firmly established the capability and future of Lamprecht Transport.

Presented on this day, the 24th of February 2018, American Lamprecht Transport honors Mr. Adolf Lamprecht Sr., founder of Lamprecht Transport and American Lamprecht. Far beyond his own expectations, the company he created would grow to become a world-renowned international freight forwarder, employing hundreds of personnel from around the world. It is through the foundation he created, and his principles and values, that we gratefully recognize and carry on his legacy.

## International Sea Freight Shipping

Take Advantage of  
Excellent Sea Freight Rates

- Send More
- Spend Less
- Transport Safely

# Sea Freight

The most economical type of transport for goods worldwide.

## Why Sea Freight?

For highly bulky cargo like auto parts, industrial machinery, or mass quantities of IBC containers, ocean freight is the most reliable shipping method. Ships are one of the longest standing methods for linking trade markets all over the globe and thus a cost-effective way to transport a large amount of machinery or totes in one shipment. With access to a multitude of reliably staffed ports throughout the world, tracking the arrival of your goods is just as simple as shipping them.

## More Affordable

The costs associated with water transport are much less when compared to transport by road, rail, or even air – especially when shipping high-volume, high-weight goods. This means a significant reduction in freight shipping rates so that you have extra money in your company budget for other business matters.

## Eco-Friendly Economy

Many things leave carbon footprints on the Earth, but when compared to railroads, airplanes, or highway travel, ocean freight is known for having the most minimal impact. Ships consume much less fuel, and a lot more can fit on a freight transport ship than a plane or rail. You can safely transport materials, save money for your business, as well as play an important role in protecting the environment.

### Weekly Sea Freight Consolidations

**22-26 Day**

**Door-to-Door Shipping**

Every week a container is packed with parcels and sent to New York and Charleston for a quick door to door delivery.

American Lamprecht Transport Inc. handles general cargo, container payloads or project loadings with leading international shipping companies. Combined transports (sea/air freight) are ideal if the consignment has to reach its destination quickly but at less cost than pure air freight. American Lamprecht Transport Inc. can provide you with a complete quote for your ocean freight shipments.

# Air Freight

When it has to go faster.

## Dependable Air Freight Services

Stress-Free Shipping  
of Scheduled or  
Last-Minute Cargo

- Faster
- More Affordable
- Global Flexibility

## Affordable Air Transport

Fewer packing materials are required to protect your materials from bumps and drops, and transit times are quicker. Whether you are shipping medical items, temperature-sensitive/perishable goods or industrial materials, you'll benefit from efficient and affordable shipping. American Lamprecht Transport, Inc. knows the ways and means and offers you fully comprehensive services for air freight, from door to door.

## Unparalleled Speed

There's no question that planes are faster than sea or land transport, and with the majority of airports sending new flights out on the hour, your time-sensitive cargo will make it to its destination easily. Tracking updates for freight flight takeoffs, landings, and final arrivals are equally quick and up to date. And because fewer hops are required with air transport due to strategic locations throughout the world, money is saved along with valuable time.

## Logistics

Although air freight negates most of the need for warehouse storage between locations, there are still many administrative factors that need to be managed when it comes to all air cargo services. Paperwork required for customs and material receiving is all handled for you and can be easily customized for routine shipments, as well as when a situation arises that needs quick handling.

### **Air Freight Weekly Consolidations**

## American Lamprecht Swiss-US Trade Line

Lamprecht and American Lamprecht have been providing efficient transportation from Switzerland and Western Europe to the United States and abroad for over 75 years. Starting with Post World War II recovery, trucking shipping enabled local companies to distribute throughout Europe and then expand to international distribution over time.

Lamprecht Switzerland and American Lamprecht are the gold standards for precision efficiency and delivery.

The process starts with efficient freight acquisition and consolidation. At the source, Lamprecht's vast trucking resources on the ground in Switzerland and Western Europe allow for quick and easy transport to freight consolidation locations. Freight consolidation in Basel is another key part of the process. The Lamprecht lines are the most efficient available for export from Western Europe to foreign ports.

Freight consolidation in Basel provides efficient packaging and processing of goods with sealed containers in Basel to speed the process along the way.

This allows for custom clearances and regulatory hurdles to be overcome so the goods can move immediately from Basel to the port for shipping.

Freight consolidations run every week, providing transportation from Switzerland and Western Europe in as little as 19 to 21 days. This is a significant savings of approximately 40% of the traditional shipping time. Once on the water, these containers then arrive in New York, Charleston, or other parts of entry for quick redistribution.

American Lamprecht creates port to port delivery options for Swiss and Western European goods to the US. American Lamprecht provides a transcontinental footprint in the United States with 9 locations for the final completion of delivery to end destinations with ease.

There are several keys to the process that allows Lamprecht and American Lamprecht to maintain this efficient shipping line.
