Sea Freight

The most cost effective way to move goods worldwide.

Why Sea Freight?

For bulky cargo like auto parts, industrial machinery, or mass quantities of IBC containers, Sea Freight is the most reliable and cost effective shipping method. American Lamprecht Transport can organize shipments of your products from your door to your customer's door.

Eco-Friendly Economy

Many things leave carbon footprints on the Earth, but compared to railroads, airplanes, or highway travel, Sea Freight has the least impact. Ships consume much less fuel per unit delivered. You can safely transport materials, save money for your business, and play an important role in protecting the environment.

Door-to-Door Shipping

Every week a container is packed with parcels and sent to New York and Charlotte for a quick door-to-door delivery.

American Lamprecht Transport Inc. handles general cargo, container payloads or project loadings with leading international shipping companies. We can provide you with a complete quote for your Sea Freight shipments.

Air Freight

When it has to go faster.

Affordable Air Freight

Fewer packing materials are required to protect your materials from bumps and drops, and transit times are quicker. Whether you are shipping medical items, temperature-sensitive/perishable goods or industrial materials, you will benefit from efficient and affordable Air Freight. American Lamprecht Transport can provide comprehensive services for Air Freight from door-to-door.

Logistics

Although air freight negates most of the need for warehouse storage between locations, there are still administrative factors that need to be managed with air cargo services. Not only is customs and material receiving handled for you, but services can be customized for both routine and rushed shipments.

American Lamprecht Swiss-US Trade Line

Lamprecht and American Lamprecht have been providing efficient transportation from Switzerland and Western Europe to the United States and abroad for over 75 years. Starting with Post World War II recovery, truck shipping enabled local companies to distribute throughout Europe and then expanded to international distribution over time.

Lamprecht Switzerland and American Lamprecht are the gold standards for precision efficiency and delivery.

The process starts with efficient freight acquisition and consolidation. At the source, Lamprecht's vast trucking resources on the ground in Switzerland and Western Europe allow for quick and easy transport to freight consolidation locations. Freight consolidation in Basel is another key part of the process. The Lamprecht lines are the most efficient available for export from Western Europe to foreign ports.

Freight consolidation in Basel provides efficient packaging and processing of goods with sealed containers in Basel to speed the process. This allows

for customs clearances and regulatory hurdles to be overcome so the goods can move immediately from Basel to the port for shipping.

Freight consolidations run every week, providing transportation from Switzerland and Western Europe in as little as 19 to 21 days. This is a significant savings of approximately 40% of the traditional shipping time. Once on the water, these containers then arrive in New York, Charleston, or other ports of entry for quick redistribution.

American Lamprecht creates port-to-port delivery options for Swiss and Western European goods to the US. American Lamprecht provides a transcontinental footprint in the United States with 9 locations for the final completion of delivery to end destinations with ease.

Founding Fathers

Thomas Lamprecht

Presented on this day, the 24th day of February 2018, American Lamprecht Transport dedicates this plaque of honor of Mr. Thomas Lamprecht, CEO and Chairman of the Board at American Lamprecht.

In the 20 years since taking over from his father as the third leader of the Lamprecht worldwide organization, Thomas Lamprecht has guided an expansion to 9 offices in the United States, 7 offices in Switzerland, and the founding of the companies Lamprecht Pharma Logistics and Expo Cargo.

We honor him today for his character as a man beloved by all who have the pleasure to work with him. His deft and steady-handed leadership has created a model ensuring the enduring future of the Lamprecht organization.

Adolf Lamprecht

July 19, 1927 — October 5, 1998

On June 24, 1971, Adolf Lamprecht II took Charge of Lamprecht Transport organization, continuing his father's vision. He would guide the company for 27 continuous years of profit without a loss, and navigate the organization into the beginning of the computer age. Under his leadership, American Lamprecht opened its second branch in Chicago — Lamprecht had exceeded in having over 200 employees and achieved the distinction of being in business for over 50 years.

Presented on this day, the 24th of February 2018, American Lamprecht Transport honors Mr. Adolf Lamprecht. He is remembered for his compassion, his value, and his commitment to the employees of the company. It is through the foundation of those principles and values, that the company adopted, and which still exist today, that we gratefully recognize and carry on his legacy.

lamprecht

Adolf Lamprecht Sr.

December 3rd, 1898 — June 24th, 1971

On January 1, 1945, Adolf Lamprecht created Lamprecht Transport. On August 17th of that year, in a shipment that was the first of its kind, a convoy of trucks transported 90 tons of fresh fish from Denmark to Basel, Switzerland through war-torn Germany. This event firmly established the capability and future of Lamprecht Transport.

Presented on this day, the 24th of February 2018, American Lamprecht Transport honors Mr. Adolf Lamprecht Sr., founder of Lamprecht Transport and American Lamprecht. Far beyond his own expectations, the company he created would grow to become a world-renowned international freight forwarder, employing hundreds of personnel from around the world. It is through the foundation he created, and his principles and values, that we gratefully recognize and carry on his legacy.
