We symbolize independence

- > As a family owned and operated enterprise we determine the direction and speed of our development ourselves.
- > We do not think in financial quarters, instead, in generations.
- > Furthermore, future employees should be allowed to work in a solidly-based enterprise.

We epitomize performance efficiency

- > The customer stands at the center of our thinking and actions.
- > We do not sell products, instead, we actualize customer wishes to customized solutions.
- > Long-standing, well-trained staff secure our competitiveness through their skills.

We contribute to caring for Mother Nature

Our forwarding professionals make every effort to process each and every transport as environmentally-friendly as possible.

These measures include the highest possible exploitation of means of transport, the avoidance of empty runs and the optimization of transport routes through to the segregated disposal of packaging materials.

We utilize, whenever possible, ecological means of transport as well as resource-friendly paper free solutions (e-freight and customs clearance).

In this way our friction free planning and friction-free execution of your consignment pay off in the long term for everyone. We stay on the ball and act sustainably.

Quality and security

We work only at one quality level – the highest!

American Lamprecht Transport Inc. is certified and validated as a participant in the Customs-Trade Partnership Against Terrorism (C-TPAT) program.

We are a member of the National Customs Brokers & Forwarders Association of America, Inc.

American Lamprecht Transport Inc.'s professional know-how and standardized procedures are a guarantee of the very highest quality on all levels. This and other distinctions are your assurance that you have chosen the right partner for your transport and logistics needs.
